Dear Colin,

VEHICLE EMISSIONS

... I should be grateful if you would arrange for the enclosed to be telegraphed as soon as possible to the Prime Minister in Milan. In view of its sensitivity I should also appreciate that its distribution is limited strictly to your own office and to the private office at No 10.

Yours ever

to the firm and clear view which I expressed to William
 in Brussels by phone from Brecon at midnight our time on
 Thursday night.
 It is too early to say how we should best deal with the
 situation in which we now find ourselves. However I
 should warn that apart from the overall resource costs
 which would flow from applying the decision within the UK
 I can no longer hold out the prospect that the BL
 Corporate Plan we have just approved could be contained
 within the financial limits we agreed.
 It seems to have been a good week for Germans and
 Japanese.
